

SMS communication between home and school is now replaced by the app "Min skole"

"Min skole" (My School) is an app for parents that will ensure communication between the school and the home. The app is connected to Visma Flyt Skole and replaces SMS text messages. **This means that communication that is now done by SMS will be replaced by the "Min skole" app by 01. March 2020.**

In the app you can:

- Send/receive messages to/from
 - Teacher/contact teacher
 - School management
 - SFO
- Register absence
- SFO
 - See when your child/children is registered in/out of SFO
 - See planned presence
 - Register messages

When you send a message to the school management/teacher in the app, it will be received as an email to the recipient (or in the app for teachers who actively uses the app). This means that one cannot expect more immediate answers than earlier. If it is urgent or you want to be absolutely sure that the message is captured before the end of the school day, you need to phone instead.

Installation - Download from Google Play or App store

"Min skole" is downloaded and installed as a normal app from the Google Play store for Android users and from the App store for iOS users. Search for "min skole". Note that you, as a parent, need to be registered with full birth number in Visma Flyt Skole for the app to find your user.

For the "Min skole" app to work, your smart phone/tablet must have a minimum iOS 11.0 (Apple) or Android 6.0 Marshmallow.

Login «Min Skole» app

When you log in for the first time you need to use "ID-porten" for identification. In addition, you must select Harstad municipality in the list of organizations. In the same operation, you choose a separate pin code for daily use of the app. Note: It is important that you do not log out of the app completely every time but close the app after use. If you sign out completely, you will not receive push notifications from the app.

What about parents who can't/won't use the "Min skole" app?

Parents who do not have a smartphone or for other reasons chose not to install the app will still be able to log in to the full version of Visma Flyt School by visiting <https://skole.visma.com/harstad> and send messages, or read messages that they would otherwise receive directly in the app. The teacher/school management can also send messages by email to the parents who has not activated the app.

If you would like to know more about how to use the app, you can find a more comprehensive information note at <https://hskole.no>
